

Site Learning Plan for Echunga 2026

Developing resilient and reflective learners

Literacy

All students to be reflective and resilient when writing.

Students will

- use varying punctuation to sentences
- be able to justify their authorial choices

Teachers will

- use student data/evidence to impact learning
- enact pedagogical practices
- Create a problem solving process across the site to be used by all staff and students

Numeracy

All students to be reflective and resilient mathematicians.

Students will

- explain their thinking
- model and represent
- coach their peers
- see themselves as mathematicians

Teachers will

- use student data/evidence to impact learning
- enact pedagogical practices
- Create a problem solving process across the site to be used by all staff and student

Wellbeing

All students to be ready for learning.

Students will

- verbalise their feelings
- verbalise their learning needs
- participate in Morning Circles

Teachers will

- use student data/evidence to impact learning
- enact pedagogical practices
- Create a problem solving process across the site to be used by all staff and student
